This informative professional development opportunity, a “Portrait of Saudi Arabia”, will include information on the history, politics, economics, geography, and culture of this important Middle Eastern country.

The Houston World Affairs Council will first provide a framework for the study of Saudi Arabia, by presenting valuable information about the history of Saudi Arabia, as well as its current political and economic situation. This session includes curriculum materials.

The Houston Education Space Team will present a unique view of Saudi Arabia, utilizing space photography to emphasize the connection between the development of the country and its physical geography. This session will include photos, photo interpretation, captions, case studies and activities. Participants should bring a good world atlas with them to the workshop.

The Institute of International Education illustrates the vibrant culture of Saudi Arabia through a presentation of its Cultural Navigators Project, “Saudi Arabia Trunk”. This session ties together the history and culture of the country.
